Demountable Partitions

In order to meet the varied requirements of architects and designers, and all offices refurbishment needs, **Elimax** company has created with the help of building actors a demountable partition answering to different priorities :

- Facility to install.
- Aesthetic appearance.
- Flexibility and solidity.

Thanks to many partners companies, in France and in other countries, **Elimax** can provide a personalised answer to your project and a reliable service with quality products at affordable costs.

Elimax company delivers all products necessary to build a complete partition :

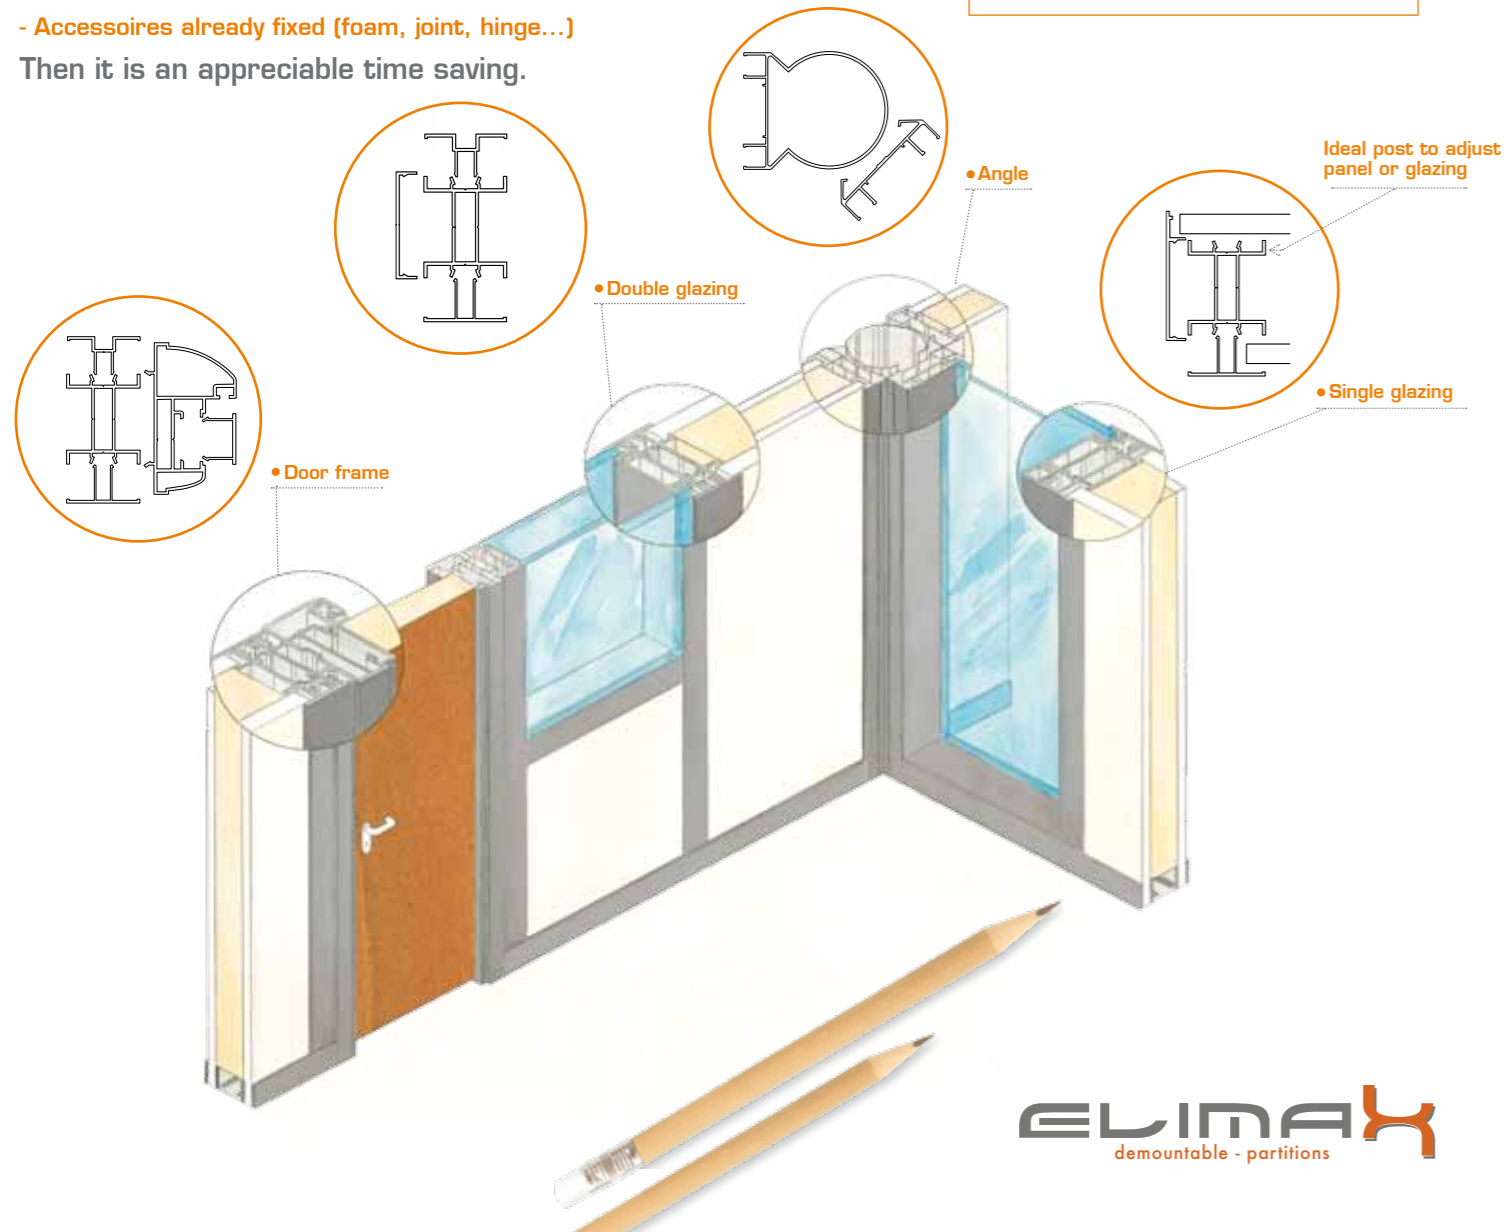

- Aluminium lacquered profiles, door frame, laminated or aluminium doors, plasterboard covered with vinyl, blinds...

These demountable partitions are mainly specified for use in industrial and office areas.

Elimax company supplies a partition ready to install :

- Profiles cut at the right dimension
- Accessoires already fixed (foam, joint, hinge...)

Then it is an appreciable time saving.
